Corporate Social Responsibility

Corporate Social Responsibility Policy (CSRP) for Metro Wind Power is about how Company aligns its activities with the expectations of our stakeholders in relation to its economic, social, and environmental impacts, stakeholders include our employees, contractors, and local community.

Company will comply all the legal requirements which applies on our project. The CSR Policy is adopted with the aspiration that Company wants to do more than just complying with the legal requirements for the benefit of the stakeholders and be a responsible corporation.

Public participation has become increasingly embedded in national and international public health policy. It has become even more crucial for decision-makers to understand who is affected by the decisions and actions they take, and who has the power to influence the outcome. Stakeholder engagement is an essential process for MPCL to promulgate updates of their services and new developments. It is also an effective way for improving MPCL services to collect stakeholder's views. MPCL believes that effective communications with stakeholders is vital to the completion of Wind power project. MPCL is consistently involved in the CSR activities for the betterment of their stakeholders, some of the activities are listed below:

- Education

Children from nearby village are getting education from a school provided by MPCL. The salary of the teacher is also being paid by MPCL. The books were provided to students.

- Provision of Drinking Water

For provision of clean water MPCL has installed hand pumps in Qasim Burfat village. Local community also takes drinking water from RO Plant. In operation and maintenance period water bowser provided to villagers.

- Health

Company also helps the villagers by extending some financial help related to medical expenditure. Company is providing basic health facilities (First aid) to local communities, and has established first aid center at MPCL site.

- Electricity

MPCL has provided solar panel on mosque. It is advised to maintain this facility in its true Essence.

- Local Employment

As per the requirement of the stakeholder engagement plan; company's contractor has employed number of people as per their skills from the local villages, local townships and district. In operation and maintenance phase company has employed 40 local people at MPCL site.

- Access Roads

Company has constructed the access roads to connect villages.

- Storm Water Diversion Bunds

The Company has started the construction of storm water diversion bunds that will help to increase the irrigation of surrounding open area for the villagers

- Grievances Redressal Mechanism

MPCL has developed and implemented a grievance redressal mechanism to resolve the complaints of locals in an effective and timely manner. According to stakeholder engagement plan MPCL is committed to ensure security and privacy of community
